

## D48 to D55 Role informations

Hi, I've tested some combination of **D48** to **D55**. I have found some interesting things ...

D52 : If present, you change your IC-718 into a IC-78.

D50 : If not present, the 160 meters band is reduced.

D54 : Full band TX (1.6 to 30 or 33 MHz (depend on **D55**).

**D55** : if not present, extend range from 30 up to 33 MHz.

Some combinations :

equivalent to #06 if:

**D48** ON  
D49 OFF  
D50 ON  
D51 OFF  
D52 OFF  
D53 ON  
D54 ON  
**D55** ON

equivalent to #04 if:

**D48** ON  
D49 OFF  
D50 ON  
D51 ON  
D52 OFF  
D53 ON  
D54 ON  
**D55** ON
