### Applications

The CMV series are fixed station antennas suitable for short range groundwave circuits and medium to long range skywave circuits.

### Features

Rugged design, built from materials which have good corrosion resistant properties and require little or no maintenance.

### Characteristics

The antennas are broadband, omnidirectional, vertically polarized, conical and operate up to 15:1 frequency band.

### Equipment Supplied

Prefabricated alumoweld curtain, bolted 6061-T6 aluminum tower, guys, base insulator, anchors, ground screen, antenna coupler, and spare hardware.

### Optional Equipment

Obstruction lights, erection kit, repair kit, and repair tool kit. Coaxial cable, connector adapters and mating adapters.
