

ADDENDUM
HTX-245
Mini Handheld 2 m/70 cm FM
Amateur Transceiver
Cat. No. 19-1106 **A**

You can change the standard frequency ranges to extended ranges for MARS/CAP service as shown below.

	Standard Frequency Ranges (MHz)	Expanded Frequency Ranges (MHz)
VHF RX	144–148	142.00–149.88
VHF TX	144–148	142.00–149.88
UHF RX	438–450	420–450
UHF TX	438–450	420–450

Caution: Once you change the setting to the extended ranges, be sure not to operate the transceiver out of allowed services.

To set the extended ranges, turn off the transceiver, hold down **2** and **3**, and turn on the transceiver again.

To return to the standard frequency ranges, turn off the transceiver, hold down **2** and **3**, and turn it on again.
